"Whenever I see Sue I immediately feel relaxed and at ease, and that's even before the massage! She can easily assess how you're feeling and uses oils and massage techniques to best suit your state of mind (and body) at that time. In addition to the massage itself Sue is great to talk to, offering advice and pearls of wisdom for all areas of your life." - **Zoe, Record Executive**

"I have, over the years had many types of massages, plain massages, aromatherapy, 'therapeutic', zone therapy etc. and was on a mission to find the perfect treatment for me. Having been to the Mandarin Oriental, Space NK and various health farms I had become convinced that I was being too fussy and that it just didn't exist. I then met Sue. It is a hard task to find someone who not only gives you the overall treatment that you have spent many years looking for but who has an 'energy' that is now for me a vital part of the treatment. Sue reaches parts that I didn't know existed and I am so disappointed when the hour has finished (the secret of a good treatment for me sadly is one that seems to fly by in 5 minutes rather than seemingly taking ages). Sue is excellent at tuning in on the problem whether physical, mental or emotional and works her wonder accordingly. I couldn't recommend her highly enough and would definitely take her on a desert island with me as my only luxury." - **Lulu, Chic Retreats Prop.**

"I've had several massages with Sue and can honestly say that she's a rare breed! Her massages leave me feeling totally relaxed and wonderful. The beauty of Sue's treatments is in her technique and extensive training. She's strong, but gentle where she needs to be and she can also work acupressure points with accuracy, or do classic Swedish style, and almost anything in between, or even a combination! This has always meant that Sue can deal with my aches, my pains and my stresses, and can tailor a massage to exactly how I'm feeling at that point in time when I'm with her. And I love her own delicious mixes of aromatherapy oils, too! I can recommend Sue without hesitation! She loves her work, knows what she's talking about, and takes real care of her clients." - **Diane, Health Clinic MD.**

"I am hooked on Sue's massage. Throughout my life, I've never understood what others saw in massage. Until stress started causing headaches and neck pain. Home House recommending Sue to me has helped me delay those pains. I come once a month, rather than waiting until I'm in such agony, that the massage really is torture.

Sue was really superb throughout my pregnancy, and knew exactly what to do - in fact it's the kindest massage she's ever given me! I enjoy our chats about homeopathy and exercise and the body in general. She has a dedicated client in me." - **Barbara, Interior Designer**

"Thank you so much for your help, the oils really helped ease my discomfort and your kindness really helps my worries. Thanks again." - **Jenni, Office Administrator**

“I give you a reference with great pleasure, Sue. Your massage is very good and de-stresses me, especially around the back area. Any time I have tension, your massage clears it. You have good hands that give the right pressure and movements to soothe any aches (which I often have).” - **Zina, Financial Consultant**

“I have known Sue for over three years and I can't think how I coped without her care and support before I met her. Not only is she the best masseuse I have ever had, and as I have a bad back I've had a few, she's become my personal therapist, listening to all my moans and insecurities and giving me sensible advice and more importantly understanding me.

My back is always infinitely better after I have had one of Sue's treatments and I look forward to lying there, with Sue's hands doing their work, and also smelling the aromatherapy oils for days afterwards. I am proud to say that Sue is a friend as well as a fantastic therapist. I wish her every success in the future and I know she'll get the full recognition she deserves in her field.” - **Sheila, PA/Secretary**

"I challenge anyone to find a more intuitive, sympathetic and professional therapist than Sue Carberry. I have had dozens of such treatments all over the world, and none of these have come even close to the magic of her hands at work. She instinctively knows 'Where' and 'How Hard'. A genius at work..." - **Patrick, Company Director**

"I just wanted to thank you for the massage yesterday. I was very impressed with those rivet fingers! It was good to meet you and find someone who can really get to those deep tissues. I will have no hesitation recommending you to my patients." - **Toby, Chiropractor**

"Being a massage therapist I tend to develop a lot of tension in my shoulders and back, which is exacerbated by my existing scoliosis. I decided to go to the best practitioner I know - Sue Carberry. With her magic mix of acupressure, Tui Na, deep tissue, shiatsu-type stretches she molded me back into shape. She shook me around like a rag doll and I felt my muscles, tendons and bones realign and elongate. Three days later I could still feel the effect of all those pressure points, it was more like a workout than an airy-fairy treatment, which is what I desperately needed. One week later I still feel flexible, my posture is more open and I feel taller.

She also worked another magic - she prevented my usual period pains from occurring, so I will be forever grateful for that! I would strongly recommend you go to Sue if you have muscular pain or tension and low energy levels." - **Paola, Massage Practitioner**

It was great to meet you last night too and I just want to say thank you so much for everything you gave me last night, physically and spiritually and for all of the great advice you gave me which I've really taken onboard.

I've found myself to be really aware of my body and my posture since last night. I know it's only early days but I found this morning that I'm more tender in the left lumbar region and up the left side of my erector spinae into the traps. Interesting how it's all focussed more on the left side. I've just come back from a Yoga session and found it's released some of the tenderness and I felt more open in my back which is great so thanks for your prodding! Rivet fingers it is!!! I know I need a lot more work done!

Thanks for the two emails you've sent, really helpful and I'll definitely contact ----- and let her know that you kindly recommended me to her.

Take care and I hope we meet again soon for one of your magical massages! - **Ricki, Massage Practitioner**
